Fast Fit Tiles

## The **Fast Fit** range from Forbo

## Fast Fit Flooring Quick, Easy and Economical

Fast Fit is Forbo's collection of genuinely adhesive free products including entrance products and interior flooring ranges in sheet, tile and plank format for maximum flexibility. The products are rapid to install and can be reused.

Quick – many of the products can be fitted over existing floors and as they don't need to be installed with adhesive, they can reduce installation time by over 50%.

**Easy** – Fast Fit tile and plank products simply click or butt together and, as no adhesive is required, they are easier to install. There are no adhesive odours, frequently less disruption and dust, and floors can be walked on immediately after installation.

**Economical** – With hospitals, call centres and retail outlets offering 24 hours service, a reduction in downtime can mean substantial savings for the client, and as there's no need for adhesives, there's a potential saving on installation costs. The savings are even greater when an existing Fast Fit product is replaced with another Fast Fit product.

**Sustainable** - Fast Fit products can be removed easily without damage to the subfloor. They are also suitable for reuse as there's no adhesive residue, helping to contribute to the circular economy.

# Fast Fit Entrance Coral Click

- A well designed Coral entrance flooring is an investment, not a cost.
- 'Off the shelf' modular matting system.
- Exceptionally easy to fit, handle and store.
- Testing by Cleaning Research International has shown that by stopping up to 95% of walked-in dirt and moisture, Coral reduces the time spent cleaning the building's other floor coverings by up to 65%.
- In fact, each m<sup>2</sup> of Coral removes up to 5kg of dirt or 6 litres of water!
- The savings made within 6 months means that the product and fitting costs for Coral are recouped within 6 months of use!

## Fast Fit Sheet Modul'Up

Forbo's new Modul'up adhesive free vinyl sheet collection is a ground-breaking floor covering. the product is suitable for both new build and for renovation applications in health care facilities , schools and offices as well as residential buildings.

The Modul'up vinyl sheet collection heralds a technological innovation as a "lay-flat, stay flat" floor covering solution that does not require any adhesive. As such it reduces the amount of material and energy used for a flooring installation and ensures that the product can be recovered easily and safely at the end of its service life.

In addition, the usual constraints associated with adhesives are removed, such as drying times and lingering odours.

## Where to Use Modul'up?

Modul'up is capable of withstanding all types of wear and tear with its "lay flat, stay flat" technology and its enhanced indentation resistance, and is suitable for both new build and for renovation applications in health care facilities, schools, offices and well as residential buildings.

### **Decibel 19 dB high traffic acoustic version**

Delivering underfoot comfort and enhanced impact sound reduction, the Decibel version is ideally suited for communal areas of multi-unit housing, education buildings, care homes, offices and public buildings.

### **Compact intensive traffic version**

Ideally suited for health care institutions, care homes, education facilities and public buildings where, in addition to high foot traffic, occasional rolling loads are part of the use of the building.

### **T.E. for damp subfloors**

A quick and easy to install solution for damp subfloors with up to 97% RH. Featuring our Aquablock back layer embossing, Modul'up T.E. allows the subfloor to breathe and moisture to dissipate.

## Fast Fit Planks

Our Fast Fit collection offers two different plank ranges, both of which are adhesive free helping to reduce installation time. Depending on the application, intensity of use and aesthetic requirements, you can choose the Fast fit range that best suits your needs. Click 'More' to view our Fast Fit planks collection.

- **Allura Click Pro** - LVT collection of tile and planks in realistic wood and stone designs that can be quickly and easily installed thanks to our proven and patented 'click' system. There are 54 wood effect planks available in Allura Click Pro.
- **Allura Ease** - Fast to install as the planks and tiles simply butt together. Also suitable for reuse.

## Allura Click Pro - adhesive free planks

(also in tile format for stone effect)

Combine the comfort of LVT with the ease of installation of a Click system floor. Our new Allura Click Pro LVT collection provides an adhesive free, clickable design solution. The collection consists of 51 elegant floor designs in wood and stone decors. Realistic plank sizes, natural embossing and true tone colours make each item unique.

Allura Click Pro is **suitable for use with uneven subfloors** and is genuinely adhesive free. As part of Forbo's Fast Fit collection, it can reduce installation time by over 50%, as well as ensuring re-use of the floor, thus minimising environmental impacts.

All designs in Allura Click are also available as tackified loose lay option ([Allura Flex](#)) and fully adhered option ([Allura Dryback](#)).

## Allura Ease – adhesive free planks

(also in tile format for stone effect)

Suitable for use across a wide variety of applications, new Allura Ease is **completely adhesive free**, making it not only easy to install but also to remove, re-use and recycle. Ease allows adhesive free installation in any single area without transition up to 250m<sup>2</sup> and as part of Forbo's Fast Fit collection, it can reduce installation time by over 50%.

Our Allura Ease LVT is specially designed for adhesive free installation. The tiles and planks are quick and easy to install, with the advantage that they are also easy to remove, re-use and recycle.

The superb dimensional stability and build up of this floor covering and the specific production process means that the tiles and planks remain flat no matter what. An absolute necessity for an adhesive free floor covering.

63496 grey waxed oak, 62523 grigio concrete and 62418 charcoal concrete

## Fast Fit Tiles

The Fast Fit tile collection offers a wide variety of functionality, performance and aesthetics, and all are adhesive free.

- Allura Click Pro - LVT collection of tile and planks in realistic wood and stone designs that can be quickly and easily installed thanks to our proven and patented 'click' system. There are 17 stone and concrete effects available in Allura Click Pro.
- Allura Ease - Fast to install as the planks and tiles simply butt together. Also suitable for reuse.
- Allura Puzzle - Interlocking 96 x 96cm tiles that are ideal for large scale installations and quick and easy to install
- Allura Colour Plus – High performance product with dovetail construction for a strong and stable connection which smoothly seals the floor surface
- Colorex EC plus – Permanently conductive tile floor covering in a loose lay tile format for when downtime or poor sub floors are an issue
- Colorex Basic plus – Loose lay tile format ideal for when downtime or poor subfloors are an issue

## Allura Puzzle loose lay vinyl tiles

Our Allura Puzzle vinyl tiles have a **unique puzzle shaped** size of 96x96 cm and are specially designed for adhesive free installation. The superb dimensional stability and the strong puzzle connection makes the tiles ideal for adhesive free installation in **high traffic areas** for any single area up to 500m<sup>2</sup> without transition.

Requiring minimal subfloor preparation, as part of Forbo's Fast Fit collection, Puzzle can reduce installation time by over 50%

The unique puzzle shaped tiles of Allura Puzzle are quick to install without the need for adhesives, with the advantage that they are also easy to remove, re-use and recycle.

The tiles can also be used in high traffic areas thanks to the strong puzzle connection.

# Allura Colour Plus

Allura Colour Plus tiles offer rapid loose lay flooring solutions with a touch of class. The durable tiles combine great looks with efficient installation & maintenance. Ideal for demanding environments.

The invisible dovetail construction ensures a smooth and stable connection while the honeycomb system on the reverse provides effective moisture control and overcomes the need for a mould barrier.

- Superior locking strength
- Integrated invisible locking system
- Quick installation while business continues
- Integrated moisture management system
- Ideally suited for renovation projects directly covering ceramic or resin floors
- Quick installation of up to 20<sup>m</sup>2 per hour

## Colorex EC Plus

Colorex EC Plus is Ideal for quick installation and renovation of sensitive areas such as laboratories, IT-rooms and cleanrooms . Colorex EC Plus satisfies the strictest requirements for particle release behaviour, helping to reduce any threat of contamination.

Reducing the generation of electrostatic charges is the main purpose of control measures in ESD protected areas (EPA). In such areas like electronics assembly, mechatronics and data-centers the right floor covering plays a crucial role. It does not only drain electrostatic charges from personnel and equipment, but it also reduces the generation of charges there where they occur, at the interface between the shoe soles and the floor.

## Colorex Basic Plus

Colorex Basic Plus is a loose lay floor system with Colorex on top without conductive properties. This ensures all the benefits of Colorex like high density, easy repair and stain resistance. But also combines the benefits of a heavy duty loose lay tile.

Colorex Basis Plus ensures quick renovation and easy installation providing a hard wearing surface with SD Properties.
