

MEDICAL GAS SAFETY: E-LEARNING

Helping Nursing & Clinical Staff to Work Safely with Medical Gases

Take Medical Gas Training at your own pace and convenience with our new e-Learning Course.

Why Choose HAC e-Learning?

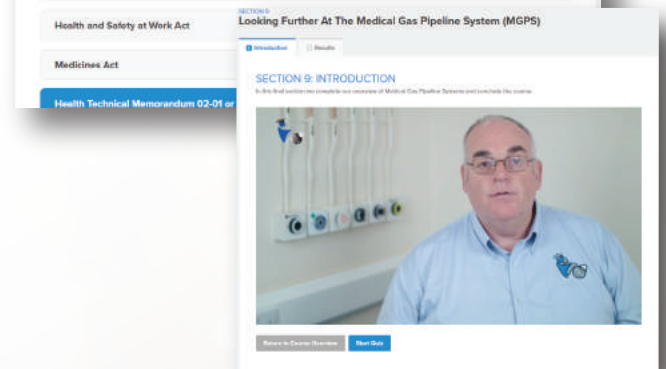

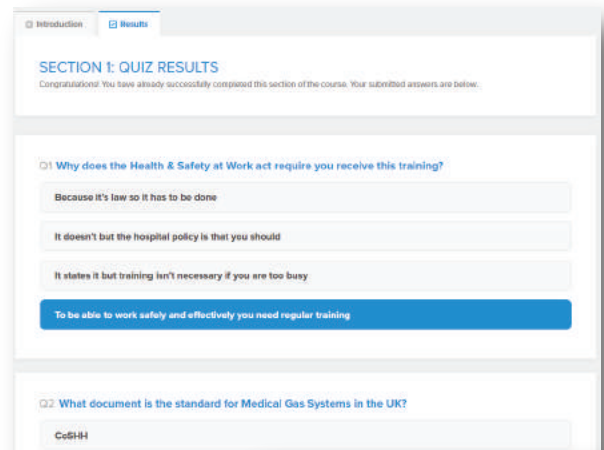

User-Friendly: A simple and easy to use internet-based system, for use anytime, anywhere (compatible with desktop computers/laptops, tablets and smart phones).

Flexible & Convenient: Save your progress as you go, working at a time and pace that suits you.

Cost & Time-effective: An efficient alternative to classroom-based learning. Purchase the number of licenses to suit the size of your organisation.

Flexible: Bespoke packages available, with Face-to-Face Sessions available as an Add-On*.

Fully Certificated & Designed by Medical Gas Authorising Engineers.

*Recommended every two years.

Want To Know More?

Talk To Us: To find out more about our brand new e-Learning Packages, visit our website, call or e-mail us and we will be happy to assist with any queries you might have.

A short **demonstration** is also available on request.

What Are The Costs?

Not as much as you might think.

Through extensive research and in-house knowledge, we believe our course to be one of the most **cost-effective** in the MGPS Training Sector.
