

ICS COOL ENERGY HIRE TEMPERATURE CONTROL SOLUTIONS FOR FACILITIES AND HEALTHCARE ESTATES

OUR HIRE PROPOSITION

- **ICS Cool Energy take care of all your temporary heating and cooling requirements from -40 to 90°C**
- **500 Megawatts of stock, available for immediate despatch from Southampton & Bradford**
- **We specialise in short (incl. emergency) & long term hire of boilers, chillers & portable air conditioning equipment**
- **Our response times are second to none, from receipt of your enquiry, site survey, through to delivery and installation in a matter of hours**
- **We have extensive experience of working with Facilities Management companies, Healthcare providers, Local Authorities and District Heating suppliers**

WE MAKE IT WORK

OUR 2 DEPOTS

Southampton Warehouse & Offices – 5142 sq. metres

Bradford Warehouse & Offices – 2415 sq. metres

WHY CHOOSE US?

- **Over 30 years experience**
- **Dedicated Hire Sales Engineers / National Accounts Team**
- **Largest UK hire fleet (£40m stock) with average age of equipment of just 1.4 years**
- **Full turnkey solutions you can depend upon with 24/7 technical support and backup**
- **Contingency planning to resolve any future problems even faster**
- **Fast, reliable and cost effective**

WHEN WILL YOU NEED OUR HIRE SOLUTIONS?

- **To cover upgrades, retrofits or replacements**
- **To provide additional cooling & heating (seasonal or supplementary)**
- **To get you back up and running if you experience an unexpected equipment failure**
- **To assist with specialist ad-hoc temperature control requirements**
- **To provide support whilst scheduled maintenance takes place**

WHAT ARE THE BENEFITS OF HIRE?

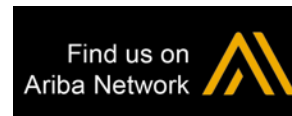

- 1) Choosing a short or long term hire solution allows you to maintain operations whilst you decide on the best permanent solution**
- 2) Hiring is the ideal choice when capital investment is not possible**
- 3) Having a hire contingency in place is the best plan, so you know when and where temporary solutions are available should an emergency arise**
- 4) A short-term hire is perfect for a spike in temperature or conditions that last a couple of months (additional summer cooling, additional winter heating)**
