

ONE PLACE TO ACCESS IT ALL

WE CONNECT THE DETAILS

MyMedGas allows you to manage your entire Medical Gas Pipeline Systems (MGPS).

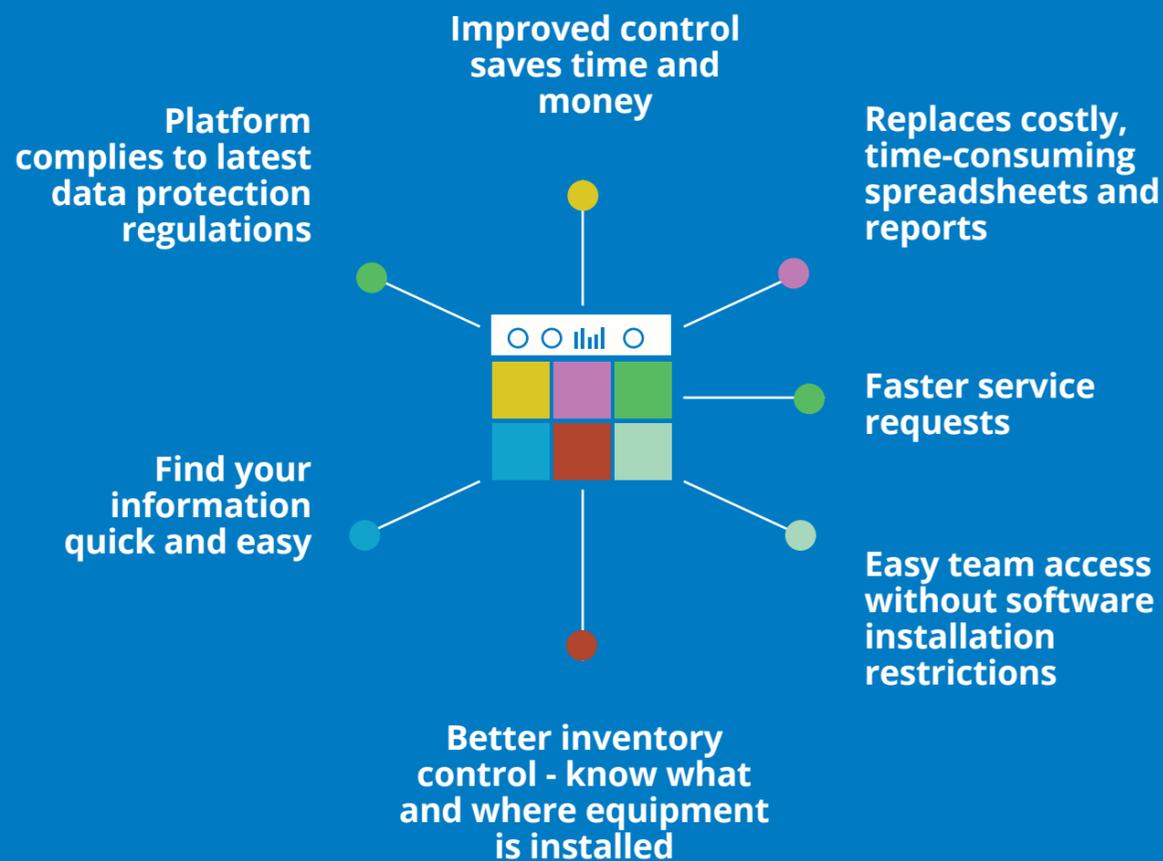

We connect all the details on compliance, assets tracing, equipment history, competence development and 24/7 support. Our easy to use digital platform includes features such as inventory asset management, monitoring of equipment, maintenance history, reports, compliance status and much more. Together with our nationwide service organisation you get full control of your MGPS, ultimately supporting your patients.

ASSET TRACEABILITY

Complete asset management solution that includes a detailed history log for each asset's lifetime – starting with the initial installation all the way through its replacement.

A FLEXIBLE AND RELIABLE PLATFORM

MyMedGas is configured to meet your unique needs today as well as any changes tomorrow.

DOCUMENT LIBRARY

Easy Access. Keep all critical compliance reports in one place. Manage your own reports categories

- Inspection Reports
- Deficiency Reports for management
- Preventative Maintenance Reports

EQUIPMENT HISTORY

See all historical information related to your equipment. When it was last checked, maintained, repaired. What was done and who performed the service.

You have all traceability and maintenance records

INFORMATION MANAGEMENT DASHBOARD

EVERYTHING IN ONE PLACE

- Visually tracks, analyses and displays key performance indicators, bringing intelligence to you
- Cloud based platform monitors the health of your assets
- Flexible interface monitors both medical gas assets and non-medical gas assets

HELPS YOU MAKE INFORMED DECISIONS, FASTER

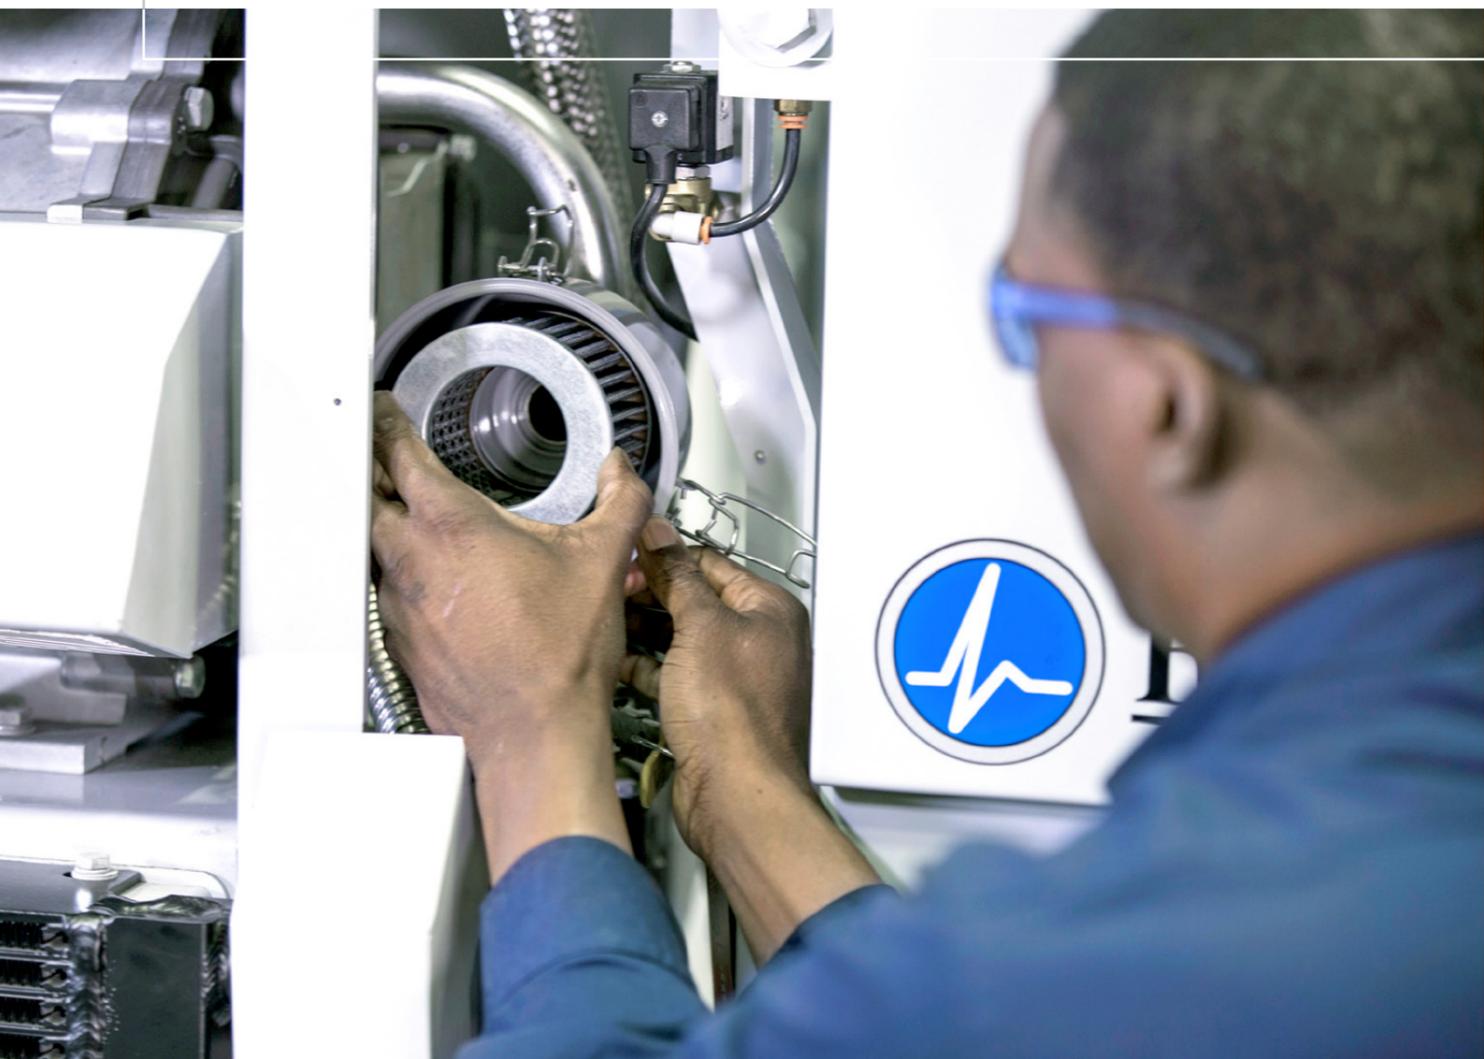

Offers automatic email notifications to team members within your facility.

White papers help you understand medical gas issues, solve problems, and ultimately offer insight so you can make the right decisions.

REQUEST SERVICE QUICK AND EASY

- 24/7 request for service and quotes
- Platform for equipment monitoring

INCREASE FIRST-TIME-RIGHT RATIO

Less service visits required to solve the issue because you know the exact status of all your equipment.

Want to track the status of your assets online? **Register here.**
