

Water Treatment

NATIONAL HYGIENE SERVICES LTD IS AN
INDEPENDENT WATER TREATMENT, MAINTENANCE
AND TESTING ENGINEERING COMPANY WITH OVER
27 YEARS EXPERIENCE

We have a level of expertise that benefits a vast range of clients. These include manufacturing and factory sites, hospitals, schools, colleges, universities, retail outlets, public buildings, housing developments, offices, commercial and domestic buildings.

Underlying all of our activities is an unrivalled knowledge and understanding of regulatory authorities and standards committees such as BSRIA BG 29/2012, BS 8558:2015 and PD 855468 regulations.

“ Our engineers have experience of countless types of water treatments, water system service and maintenance, everything from large pre commissioning chemical cleaning of factory heating and cooling systems to domestic TMV testing and shower head disinfections. ”

Our collaborative and proactive approach drives efficiency, cost savings and offers our clients peace of mind. We are committed to continuous improvement, through innovation and investment in our personnel, methodologies and equipment.

We offer extremely competitive rates and daytime, evenings and weekends to offer minimal disturbance to our customers.
