

Saint-Gobain Ecophon

Online CPD seminar

Noise as a health issue – ageing and dementia

Saint-Gobain Ecophon is a leading global supplier of acoustic ceiling and wall panel systems.

With a reputation for innovation and thought leadership.

Ecophon's products help to deliver healthy environments wherever people learn, work or heal.

They have been delivering CPD presentations for approaching 20 years, and have a reputation for interesting, relevant content.

This session will be delivered in approximately 30 minutes, please allow extra time for questions and discussions

This online CPD explores the extremely relevant question of acoustic design for an ageing, population discussing the impact of both ageing and dementia on our hearing and applying principles that promote acoustic accessibility when designing for care and community spaces.
