

46 - Wash/Change/Cloakroom Products

C&B Systems

C&B Systems designs, supplies and installs washroom, changing room and cloakroom products, with or without sanitary ware. C&B Systems along with the Schaefer range of products have a set of designs that are far superior yet are still affordable. Superior by look, performance and use.

Market Sectors: Leisure Centres, Office Interiors, Hospitals, Schools, Hotels, Golf Clubs, Stations, Airports, Shipping, Camp Sites and all commercial areas.

Cubicles

Changing, WC Doc M and assisted, shop changing rooms, sun bed cubicles and all other cubicle locations. Please visit our Schaefer partner website at <https://uk.schaefer-tws.com>

Style

Standard 2000mm high:

- 'Jump' – The appearance of being clear from the floor
- 'Premium' – Full height
- 'Child' – A variety of heights & designs

Materials: Solid laminate, 30/40 melamine, glass, stainless steel, woodgrain and powder coated steel.

Fittings: Nylon, aluminium, stainless steel or chrome.

Performance: Some ranges are for 'wet use' and others for 'dry use', whilst some do both.

Accessories

- Coat hooks
- Toilet roll holders
- Toilet brushes
- Grab rails
- Toilets & basins
- Taps
- Thermostatic valves
- Showers

Vanity Tops & Units

A full collection to match the above are available.

Materials: To match the cubicles but including solid surface. Kerrock solid surface has perhaps the highest performance of all one-piece vanity and basin products. C&B can also work with Epoxy products.

Changing Rooms & Cloakrooms

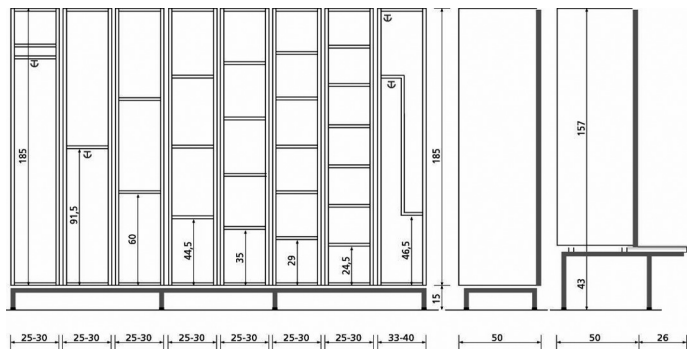

Lockers available in all sizes.

Materials: Glass, laminate and timber.

Accessories: A variety of lock types and functions, coat hanging, etc.

Locker Types

The illustration below shows locker options.

Bench Seating
