

High Voltage Authorised Person HTM 06-03

Training Course - Eta Projects - 11

Course objectives

This course is designed for suitably qualified electrically trained delegates who seek appointment as High Voltage Authorised Person (HVAP).

Delegates will acquire the essential knowledge to carry out HVAP duties and maintain compliance with the Electricity at Work Regulations 1989 and HTM 06-03.

Course content

- Electricity at Work Regulations 1989
- HTM 06-03 safety rules and procedures
- High Voltage (HV) equipment including switchgear and transformers
- Substation operation and maintenance
- HV distribution systems, ring, and radial system operation
- Hv protection, including, HRC fuses, time limit fuses, and common relays
- Completion of records and documentation, including, permits to work, sanctions for test, and limitations of access
- Identification and location of cables
- Testing/commissioning of HV electrical distribution equipment
- HVAP roles and responsibilities

The course concludes with a personal assessment. From this, our training consultants will produce an individual pathway to ensure continuous Authorised Person (AP) appointment. The pathway document will be sent to the delegate's Authorising Engineer (AE).

Benefits of the course

- Legislative compliance and understanding
- Improved communication, documentation, and enforcement of safe working procedure

What do I need to bring to the course?

Nothing. A comprehensive set of handouts will be issued during the course.

Duration of the course

This is a four-day course designed to be delivered virtually via Microsoft Teams with a maximum of eight delegates.
