Suspended ceilings in hospitals - not just aesthetics

We invite you to join us for a short presentation, on the key considerations for providing a hospital with a suspended ceiling. This session will cover:

- Why we may use a suspended ceiling
- Room acoustic requirements
- Complying to HBN/HTM ceiling requirements
- Features - what makes a difference

Available online, or in person, by contacting Andrea Harman

Telephone - 07771 565 382

Email - Andrea.Harman@ecophon.co.uk
