

## Competent Person Ventilation HTM 03-01

📍 York, Slough, Livingston and On-site | 3 Day | [View Latest Price & Availability](#)

### Course Overview:

This course has been developed to provide the necessary information to understand the duties & responsibilities of the nominated Competent Person (HTM 03-01). The course will provide awareness of the different types of ventilation and air-conditioning systems, their component parts and typical layout that conform to healthcare applications. The course will identify the inspection, operation and maintenance activities required and are carried out safely without hazard to staff, patients or members of the public. Those required to inspect, verify or maintain ventilation equipment will need to show competence. You should have sufficient knowledge of correct operation and be able to recognise faults.

### Who Is This Course For:

This course has been developed for operations managers technical staff and consultants who require an understanding of how to operate and maintain specialised ventilation systems in healthcare premises.

### Key Learning Areas:

- Types and purposes of ventilation systems within the NHS
- Statutory comfort standards requirements and sources of Department of Health and Industry guidance
- Identifying the role of smoke and fire dampers, their maintenance and inspection requirements
- Identifying the essential components of an air conditioning system
- Identifying appropriate filter grades required for NHS ventilation systems
- Humidification and de-humidification, explain its use within the NHS
- What precautions should be in place in NHS ventilation and air conditioning systems to control Legionella.
- Describe the function of control systems within ventilation systems
- Inspection and verification of critical ventilation systems. Plus practical application.
- Instruments used to collate information from the ventilation systems, and their practical use.
- Safe System of Work and the NHS risk assessment process model.

## 📍 York Campus

Our head office is conveniently based at York Business Park on the outskirts of York city centre. This well-established training centre accommodates a number of practical assessment areas for a highly interactive and participative training experience, alongside large comfortable classrooms with amenities such as complimentary WiFi, and refreshments.

## 📍 Slough Campus

Our Slough centres are ideally situated on the Slough Trading Estate, with central London and Heathrow both less than 20 minutes away. The Malton Avenue centre covers 15,000 square feet and boasts over 7,000 square feet of practical assessment training space. As with our York centre, we provide large comfortable classrooms with amenities such as complimentary WiFi and refreshments.

## 📍 Livingston Campus

5 Deer Park Avenue, part of the Fairways Business Park was established as our Scottish training centre in 2022. This easily accessible centre (just off the M8) services our connections north of the border, as well as those in the north of England. It houses 4 newly refurbished classrooms, as well as practical training facilities for F-Gas handling, Low Voltage and Mechanical and Pressure Systems
