

COMPETENT PERSON MECHANICAL AND PRESSURE SYSTEMS REMOTE

CITY & GUILDS ACCREDITED (ECPMPS)

Course Overview:

This City & Guilds accredited course will enable you to gain the knowledge required to carry out the role of Competent or Skilled Person (Mechanical) and can assist in demonstrating a full understanding company safety rules and procedures during formal assessment. Many organisations have adopted JSP 375 Volume 3 Chapter 4 (or parts thereof) as the basis for a Safe System of Work as applied to mechanical systems. For practicable commonality this course is based on the content of this document together with HSG 253 Safe Isolation of Equipment.

As we understand that our training staff are a vital component of our training, all our remote learning courses are delivered live by one of our tutors through Zoom.

Who Is This Course For:

This is aimed at mechanical staff with responsibility for the operation or maintenance of installed mechanical plant and who may be nominated as a Competent or Skilled Person within their organisation.

Key Learning Areas Covered in This Course:

- Technical overview of mechanical systems components
- Requirements of Pressure Systems Safety Regulations
- Safe system of work associated with mechanical systems
- Receipt of safety documentation
- Practical exercises in the isolation of mechanical equipment

Course Duration / Fees / Location:

3 day training course, £375+VAT per delegate. Available as Remote Training.
