

Authorised Person Electrical Low Voltage HTM 06-02 Refresher

📍 York, Slough, Livingston and On-site | 3 Day | [View Latest Price & Availability](#)

Course Overview:

This course is designed to refresh and update your knowledge of the requirements contained within HTM 06-02 in order to support the process for re-appointment as Authorised Person Low Voltage within a healthcare environment.

Who Is This Course For:

This course is aimed at experienced engineering staff with responsibility for the control, operation or maintenance of installed low voltage systems and who may be appointed as Authorised Person (AP Electrical Low Voltage). This course is solely for current and/or experienced AP's in the healthcare industry.

Key Learning Areas:

- Requirements of Electricity at Work Regulations
- Review and apply content of HTM 06-02
- Review of working procedures to HTM 06-02
- Control of electrical works by competent persons
- Practical exercises in completion of Safety Programmes and issue of Permits to Work and other safety solutions
- Completion of logbooks and associated documentation

📍 York Campus

Our head office is conveniently based at York Business Park on the outskirts of York city centre. This well-established training centre accommodates a number of practical assessment areas for a highly interactive and participative training experience, alongside large comfortable classrooms with amenities such as complimentary WiFi, and refreshments.

📍 Slough Campus

Our Slough centres are ideally situated on the Slough Trading Estate, with central London and Heathrow both less than 20 minutes away. The Malton Avenue centre covers 15,000 square feet and boasts over 7,000 square feet of practical assessment training space. As with our York centre, we provide large comfortable classrooms with amenities such as complimentary WiFi and refreshments.

📍 Livingston Campus

5 Deer Park Avenue, part of the Fairways Business Park was established as our Scottish training centre in 2022. This easily accessible centre (just off the M8) services our connections north of the border, as well as those in the north of England. It houses 4 newly refurbished classrooms, as well as practical training facilities for F-Gas handling, Low Voltage and Mechanical and Pressure Systems

On-Site and Remote Training Options

We recognise some of the commercial restraints which surround sending multiple members of a team on to training courses. There are also the financial implications of accommodation, travel and time away from site.

Some of the key benefits of on-site training include; Reduced down time, Dates to suit your team and Cost effective team training

Some of the key benefits of remote training include; Live tutor-led courses, Cost effective delivery and Reduced down time

The Importance of Practical Training

Our practical facilities showcase industry standard installations, enabling delegates to gain hands-on experience in a variety of settings, designed to mimic those found across the healthcare estate.

By attending either of our AP or CP courses, you will gain transferable skills and knowledge to be able to carry out your duties in-line with HTM Guidance and enable you to react effectively to emergency situations, should they arise.
