

Introducing The Risk of Pseudomonas aeruginosa and Other Waterborne Pathogens Remote

 Anywhere, via Zoom or Teams | 1 Day | [View Latest Price & Availability](#)

Course Overview:

Our 1 day Remote, tutor-led City & Guilds training course will introduce you to Pseudomonas aeruginosa – its risks, habitat and subsequent control methods. This course has been designed to provide a proactive solution to Pseudomonas aeruginosa rather than a reactive approach. We will provide you with an understanding of effective hygiene practice and water management to ensure the risk of Pseudomonas aeruginosa is kept to a minimum. The course will align with BS8580-2 Risk Assessments for Pseudomonas aeruginosa and other waterborne pathogens – CoP. Upon completing this course you will have gained a more informed understanding and increased knowledge of Pseudomonas aeruginosa to help in carrying out water risk assessments in a healthcare environment and contributing to the Water Safety Plan.

Who Is This Course For:

This Pseudomonas aeruginosa training course has been designed as an entry point for anyone needing to further their water hygiene knowledge to include other waterborne pathogens. This course has been developed inline with HTM 04-01, and BS 8580-2:2022 ensuring that you have the most up to date knowledge and is directly applicable to the healthcare environment.

Key Learning Areas:

- An introduction to Pseudomonas aeruginosa
- A clinical understanding of Pseudomonas aeruginosa
- Requirements of HTM 04-01 Part C
- Understanding the requirements of BS 8580-2:2022 in the water risk assessment process
- Pseudomonas aeruginosa in the environment
- Control of Pseudomonas aeruginosa in hot and cold water systems
- Sampling methods for Pseudomonas aeruginosa and subsequent actions
- Course assessment

📍 York Campus

Our head office is conveniently based at York Business Park on the outskirts of York city centre. This well-established training centre accommodates a number of practical assessment areas for a highly interactive and participative training experience, alongside large comfortable classrooms with amenities such as complimentary WiFi, and refreshments.

📍 Slough Campus

Our Slough centres are ideally situated on the Slough Trading Estate, with central London and Heathrow both less than 20 minutes away. The Malton Avenue centre covers 15,000 square feet and boasts over 7,000 square feet of practical assessment training space. As with our York centre, we provide large comfortable classrooms with amenities such as complimentary WiFi and refreshments.

📍 Livingston Campus

5 Deer Park Avenue, part of the Fairways Business Park was established as our Scottish training centre in 2022. This easily accessible centre (just off the M8) services our connections north of the border, as well as those in the north of England. It houses 4 newly refurbished classrooms, as well as practical training facilities for F-Gas handling, Low Voltage and Mechanical and Pressure Systems

On-Site and Remote Training Options

We recognise some of the commercial restraints which surround sending multiple members of a team on to training courses. There are also the financial implications of accommodation, travel and time away from site.

Some of the key benefits of on-site training include; Reduced down time, Dates to suit your team and Cost effective team training

Some of the key benefits of remote training include; Live tutor-led courses, Cost effective delivery and Reduced down time

The Importance of Practical Training

Our practical facilities showcase industry standard installations, enabling delegates to gain hands-on experience in a variety of settings, designed to mimic those found across the healthcare estate.

By attending either of our AP or CP courses, you will gain transferable skills and knowledge to be able to carry out your duties in-line with HTM Guidance and enable you to react effectively to emergency situations, should they arise.
