

INTRODUCTION TO PSEUDOMONAS AERUGINOSA

CITY & GUILDS ACCREDITED (WH011)

Course Overview:

Our 1 day City & Guilds training course will introduce you to Pseudomonas aeruginosa – its risks, habitat and subsequent control methods. This course has been designed to provide a proactive solution to Pseudomonas aeruginosa rather than a reactive approach. We will provide you with an understanding of effective hygiene practice and water management to ensure the risk of Pseudomonas aeruginosa is kept to a minimum.

Upon completing this course you will have gained the knowledge and experience needed to write a well informed Pseudomonas aeruginosa water safety plan.

Who Is This Course For:

This Pseudomonas aeruginosa training course has been designed as an entry point for anyone needing to further their water hygiene knowledge to include other water based pathogens. This course has been developed inline with HTM 04-01, ensuring that you have the most up to date knowledge and is directly applicable to the healthcare environment.

Key Learning Areas Covered in This Course:

- An introduction to Pseudomonas Aeruginosa
- A clinical understanding of Pseudomonas Aeruginosa
- Pseudomonas Aeruginosa in the environment
- Control of Pseudomonas Aeruginosa
- Sampling methods for Pseudomonas Aeruginosa

Course Duration / Fees / Location:

1 day training course, £295+VAT per delegate. Available in York, Slough and On-site.
Accommodation from £98+VAT (including DBB).
