

Authorising Engineers (Medical Gas Pipeline Systems)

The HTM02-01 (and its equivalent guidance) recommends that only suitably qualified AE(MGPS)s are used; IHEEM hold the only register in the UK for AE(MGPS)s and operates the AE(MGPS) Panel which screens potential new registrants' applications, interviews those felt to have the right experience and professional expertise, and subsequently confers AE(MGPS) Registration on successful Candidates.

Why Should I Join the IHEEM AE(MGPS) Register?

Gaining AE(MGPS) registered status affords confirmation that the individual has:

- ✓ the professional skills
- ✓ the knowledge
- ✓ the expertise
- ✓ the overall qualities, to advise NHS Trusts and other healthcare organisations on a range of medical gas issues effectively and expertly.

The IHEEM AE(MGPS) Panel

The following bodies are represented on the AE(MGPS) Panel:

- 5 AE(MGPS) - Representation includes each of the devolved healthy authorities
- 1 Representative from the Medical Gas Association
- 1 Pharmaceutical Representative
- 1 Representative from the Department of Health
- 1 Representative from an accredited training organisation

How do I join?

Please read the enclosed registration requirements document, if you feel that you meet the criteria then please complete and return the application form, AE Appendix and provide supporting professional review and CPD log via post or email to:

The Membership Department (membership@iheem.org.uk)
IHEEM, 2 Abingdon House
