# Racecourse venue for 'Meeting the Standard' AE conference

IHEEM is partnering with Air Sentry and GPT consult to deliver the annual Authorising Engineers Conference on 6 July at Epsom racecourse in Surrey.

The theme of the Conference is 'Meeting the Standard', with the programme developed by the Institute's specialist Technical Platforms. IHEEM said: "This event is a must-attend for anyone providing specialist technical engineering services to the healthcare sector. Delegates will include IHEEM-registered Authorising Engineers, members of IHEEM's Council, senior employees within the NHS, tradespeople working within the healthcare sector, private sector engineers, and apprentices (our future workforce)." The draft programme features a range of professional speakers covering:

- How national and international standards evolve, and what AEs can do to influence them.
- Discipline-specific update workshops. A debate on the appointment of Accountable Persons (APs), and whether the process requires regulation/registration.
- Independence in the role of an Authorising Engineer.

- The Expert Witness - the legal aspects.
- A panel discussion on how to maintain standards while working towards the Net Zero carbon agenda within healthcare.

The Institute added: "This conference is being hosted in an amazing location, and in line with IHEEM's commitment to make its events more inclusive and affordable, tickets are available to IHEEM members for only £50 a day (+ VAT). IHEEM would like to thank our Company Affiliates for their ongoing support for these events, both through their sponsorship, and their involvement in our exhibitions. They have played, and will continue to play, a vital part in the success of our events programme."

Online booking is available via: <https://www.iheem.org.uk/events/authorising-engineers-conference-2022/> For more information, go online, or call the IHEEM head office on 023 9282 3186.

## Diary dates

**IHEEM / TAHPI online Healthcare Facility Planning Course**

22 AUGUST-2 SEPTEMBER  
 14-25 NOVEMBER

**IHEEM / TAHPI Health Facility Briefing Course**

7-8 JUNE  
 29-30 NOVEMBER
