

Fire Door Survey and Inspection

📍 York and Slough | 1 Day | [View Latest Price & Availability](#)

Course Overview:

This City & Guilds Assured course is aimed at providing delegates with the appropriate knowledge of the design, inspection and maintenance of fire doors within a healthcare environment. This is in accordance with the requirements of the Regulatory Reform (Fire Safety) Order, HTM 05-02/3, BS9999 and the respective fire door management system. This course also looks to introduce the principles of the 'Golden Thread' and its role within fire door safety. Upon completion, you will be issued with a City & Guilds Assured certificate of achievement.

Who Is This Course For:

This course has been designed for healthcare/estates engineers and other personnel, who require a detailed level of understanding to ensure all fire doors are inspected correctly, maintaining compliance with all regulatory and guidance requirements.

Key Learning Areas:

- Outline the regulatory requirements relating to fire doors
- Describe the key features of fire door design and manufacture
- Identify the correct methods of fire door installation
- Specify the compliance inspection requirements of both newly installed and existing fire doors
- Specify the ongoing functional inspection requirements of fire doors
- Identify issues that will affect the required performance of fire resisting door sets
- Creating a robust fire door management system

📍 York Campus

Our head office is conveniently based at York Business Park on the outskirts of York city centre. This well-established training centre accommodates a number of practical assessment areas for a highly interactive and participative training experience, alongside large comfortable classrooms with amenities such as complimentary WiFi, and refreshments.

📍 Slough Campus

Our Slough centres are ideally situated on the Slough Trading Estate, with central London and Heathrow both less than 20 minutes away. The Malton Avenue centre covers 15,000 square feet and boasts over 7,000 square feet of practical assessment training space. As with our York centre, we provide large comfortable classrooms with amenities such as complimentary WiFi and refreshments.

📍 Livingston Campus

5 Deer Park Avenue, part of the Fairways Business Park was established as our Scottish training centre in 2022. This easily accessible centre (just off the M8) services our connections north of the border, as well as those in the north of England. It houses 4 newly refurbished classrooms, as well as practical training facilities for F-Gas handling, Low Voltage and Mechanical and Pressure Systems

On-Site and Remote Training Options

We recognise some of the commercial restraints which surround sending multiple members of a team on to training courses. There are also the financial implications of accommodation, travel and time away from site.

Some of the key benefits of on-site training include; Reduced down time, Dates to suit your team and Cost effective team training

Some of the key benefits of remote training include; Live tutor-led courses, Cost effective delivery and Reduced down time

The Importance of Practical Training

Our practical facilities showcase industry standard installations, enabling delegates to gain hands-on experience in a variety of settings, designed to mimic those found across the healthcare estate.

By attending either of our AP or CP courses, you will gain transferable skills and knowledge to be able to carry out your duties in-line with HTM Guidance and enable you to react effectively to emergency situations, should they arise.
