

Fire Safety Technical Awareness

📍 York and Slough | 3 Day | [View Latest Price & Availability](#)

Course Overview:

This City & Guilds Assured course incorporates the latest legislation, guidance and manufacturers standards, along with hands on practical experience to enhance the technical understanding of nominated fire safety personnel within the healthcare/estates environment. The course focuses on specific hardware associated with passive fire safety including fire dampers and fire doors. Active fire safety measures such as fire alarms and emergency lighting will also be covered within this course. Upon completion, you will be issued with a City & Guilds Assured certificate of achievement.

Who Is This Course For:

This course has been designed for healthcare/estates fire safety personnel, where the delegate will gain sufficient knowledge to understand the practical elements that may be detailed within a trust fire risk assessment, and experience examples of good and bad within the respective subject matter.

Key Learning Areas:

- Introduction to the associated legislation, industry guidance & specifications in relation to fire safety
- A general understanding of the requirements for; fire dampers and their testing requirements, fire doors and basic fault identification, fire stopping and compartmentation, along with basic survey, fire alarm systems and their testing requirements, and emergency lighting, including its role in horizontal evacuation
- Practical examples of the different types of equipment/systems used in passive fire safety, along with undertaking functional tests/surveys to increase overall understanding
- The maintenance requirements of NHS HTM 05-02: Guidance in support of functional provisions for healthcare premises
- The importance of a robust management system and record keeping

📍 York Campus

Our head office is conveniently based at York Business Park on the outskirts of York city centre. This well-established training centre accommodates a number of practical assessment areas for a highly interactive and participative training experience, alongside large comfortable classrooms with amenities such as complimentary WiFi, and refreshments.

📍 Slough Campus

Our Slough centres are ideally situated on the Slough Trading Estate, with central London and Heathrow both less than 20 minutes away. The Malton Avenue centre covers 15,000 square feet and boasts over 7,000 square feet of practical assessment training space. As with our York centre, we provide large comfortable classrooms with amenities such as complimentary WiFi and refreshments.

📍 Livingston Campus

5 Deer Park Avenue, part of the Fairways Business Park was established as our Scottish training centre in 2022. This easily accessible centre (just off the M8) services our connections north of the border, as well as those in the north of England. It houses 4 newly refurbished classrooms, as well as practical training facilities for F-Gas handling, Low Voltage and Mechanical and Pressure Systems

On-Site and Remote Training Options

We recognise some of the commercial restraints which surround sending multiple members of a team on to training courses. There are also the financial implications of accommodation, travel and time away from site.

Some of the key benefits of on-site training include; Reduced down time, Dates to suit your team and Cost effective team training

Some of the key benefits of remote training include; Live tutor-led courses, Cost effective delivery and Reduced down time

The Importance of Practical Training

Our practical facilities showcase industry standard installations, enabling delegates to gain hands-on experience in a variety of settings, designed to mimic those found across the healthcare estate.

By attending either of our AP or CP courses, you will gain transferable skills and knowledge to be able to carry out your duties in-line with HTM Guidance and enable you to react effectively to emergency situations, should they arise.
