

## Lift Safety Training Authorised person lift management (HTM 08-02 & LOLER & SAFed)

Eastwood Park delivers lift training for the healthcare & commercial sectors in our specialist facility with access to our 3-storey lift maintenance tower for practical, fault-finding exercises without the worry of time pressure or disruption to business.

### Is this course for you?

This course is aimed at estates and facilities managers, lift installers, servicing and maintenance contractors & engineering consultants with a responsibility as an Authorised Person for lifts within the healthcare environment.

### Course aim

To provide learners working with lifts in the healthcare sector with a thorough understanding of current legislation, regulations, roles and responsibilities and who should undertake these. In addition, the course covers the inspections and examinations required for lifts. This includes the safety examinations required of electrical and mechanical items.

### Objectives

- Apply safe working practices and procedures in a lift environment to the current legislative standards and guidance.
- Discuss the safety, legal and regulatory documentation relevant to lift installations.
- Identify and control the safety hazards encountered in the lift installation according to current regulations.
- Define the roles and responsibilities and the healthcare requirements in accordance with HTM 08-02.
- Define the term competent person in accordance with LOLER.
- Carry out a lift inspection on a lift installation in accordance with LOLER.
- Safely release a trapped lift passenger in accordance with current best practice.
- Complete the project work to the required course standard.
- Complete the written assessment to the required course standard

### Additional information

Due to the practical nature of the course, learners should bring a pair of overalls. We suggest that refresher training is undertaken every 3 years.

50+ years of world-class training
