

QUIQSOLUTIONS: PAM

NHS Premises Assurance Model

“Quiqcare has provided us with a flexible, compliance monitoring software which is tailored to the PAM, and to our Trust’s department structure. The ability to assign actions, track progress and upload evidence all in one place has certainly reduced the administrative burden on the Estates team and the reporting functions mean we can keep the senior and executive teams well informed throughout the year.”

Beth Owen, Estates
Business Support Manager
NHS East Of England
Ambulance Service

Making PAM Manageable

Since July 2021 it became a mandatory requirement for **Estates and Facilities Management** teams within **NHS Trusts** to submit an annual **Premises Assurance Model (PAM)** self-assessment.

NHS PAM is comprised of **42 workbooks**, across **6 domains**, covering all areas of estates and facilities.

PAM has many domains and standards involving a large amount of evidence data, frequently requiring input from multiple colleagues and departments across Hard & Soft FM. Spreadsheet-based solutions are cumbersome and very difficult to manage, wasting valuable time trying to keep track of everything.

QUIQSOLUTIONS PAM is the answer...

QUIQSOLUTIONS: PAM

All Domains in one solution

- ✓ Safety Hard
- ✓ Safety Soft
- ✓ Governance
- ✓ Effectiveness
- ✓ Efficiency
- ✓ Patient Experience

“We were really impressed as it offered a totally new approach to managing our PAM submissions. Being able to see where things are up to in real time and to set reminders is a big step forward from using the spreadsheet version.”

Cecilia Crump MA, MCMI
Specialist Compliance Manager
South west Yorkshire Partnership
NHS Foundation Trust

Real-time view of compliance across one or multiple domains

Includes all **SAQ's, Standards** and **Resources** from the **NHS PAM** framework

Reminders and **alerts** to ensure nothing gets missed

5-tier Evidence **RAG** rating

Multi-user access with domains allocated to **specific** users

Action Plans including progress indicators

Reporting and **dashboard** views

Survey and **Audit** builder module

Peer **review** function working with consultants

Fully **scalable**, upgrade to include any quality standards or risk management requirements

Get in touch today and see how PAM can revolutionise your Premises submission.

We can setup an online demonstration straight away so you can see PAM in action.

“The PAM assurance tool from QuiqSolutions gives us a real-time view of our Estates and FM compliance across all of the domains. It is really easy to use and allows us to store relevant policies/ contingency plans in one place. The team from QuiqSolutions are always on hand to give us support when needed.”

Stuart Gordon
