

Trapped Passenger Lift Release

📍 York and Slough | 1 Day | [View Latest Price & Availability](#)

Course Overview:

The aim of this course is to provide delegates with the necessary knowledge and practical skills to manage the release of passengers from their respective, site-specific types of lift installations and carried out in a safe and effective manner.

Who Is This Course For:

This on-site course is for lift release wardens and other staff who are responsible for the release of trapped passengers from a building's lift system, in emergency situations and/or when the lift contractor cannot meet the timescales required by the trust.

Those responsible may include healthcare estate officers, maintenance technicians, porters, security staff and caretakers.

Key Learning Areas:

- Introduction to the respective legislation and standards associated with the release of trapped personnel
- Identification of all lift mechanism safety features, and safe working procedures with energised systems, including the safety of personnel and releasing of passengers from electric traction, hydraulic and machine room less lifts
- Application of the required actions to be taken in the event of passengers being trapped within a lift, in accordance with BS7255, HTM 08-02 and other guidance
- Coordination requirements when working with third parties in the release of trapped passengers
- Escalation procedures and when they should be applied
- Post release lift installation safety requirements

📍 York Campus

Our head office is conveniently based at York Business Park on the outskirts of York city centre. This well-established training centre accommodates a number of practical assessment areas for a highly interactive and participative training experience, alongside large comfortable classrooms with amenities such as complimentary WiFi, and refreshments.

📍 Slough Campus

Our Slough centres are ideally situated on the Slough Trading Estate, with central London and Heathrow both less than 20 minutes away. The Malton Avenue centre covers 15,000 square feet and boasts over 7,000 square feet of practical assessment training space. As with our York centre, we provide large comfortable classrooms with amenities such as complimentary WiFi and refreshments.

📍 Livingston Campus

5 Deer Park Avenue, part of the Fairways Business Park was established as our Scottish training centre in 2022. This easily accessible centre (just off the M8) services our connections north of the border, as well as those in the north of England. It houses 4 newly refurbished classrooms, as well as practical training facilities for F-Gas handling, Low Voltage and Mechanical and Pressure Systems

On-Site and Remote Training Options

We recognise some of the commercial restraints which surround sending multiple members of a team on to training courses. There are also the financial implications of accommodation, travel and time away from site.

Some of the key benefits of on-site training include; Reduced down time, Dates to suit your team and Cost effective team training

Some of the key benefits of remote training include; Live tutor-led courses, Cost effective delivery and Reduced down time

The Importance of Practical Training

Our practical facilities showcase industry standard installations, enabling delegates to gain hands-on experience in a variety of settings, designed to mimic those found across the healthcare estate.

By attending either of our AP or CP courses, you will gain transferable skills and knowledge to be able to carry out your duties in-line with HTM Guidance and enable you to react effectively to emergency situations, should they arise.
