

# INSTITUTE OF HEALTHCARE ENGINEERING AND ESTATE MANAGEMENT

## Incorporated Engineer Registration

***Incorporated Engineers*** maintain and manage applications of current and developing technology, and may undertake engineering design, development, manufacture, construction and operation.

*Incorporated Engineers are able to demonstrate:*

- *The theoretical knowledge to solve problems in developed technologies using well proven analytical techniques*
- *Successful application of their knowledge to deliver engineering projects or services using established technologies and methods*
- *Responsibility for project and financial planning and management together with some responsibility for leading and developing other professional staff*
- *Effective interpersonal skills in communicating technical matters*
- *Commitment to professional engineering values.*

In this pack you will find information designed to help you in achieving Incorporated Engineer status.

It contains:

- A general guide to registration
- A copy of UK-SPEC, which sets out on pages 16-21 the competency standards you need to meet in order to be registered as an Incorporated Engineer
- Guidance to Incorporated Engineer candidates
- A sample Engineering Practice Report
- A pro-forma report form for completion
- A note of the fees involved

You will almost certainly have additional questions regarding this pack and the information it contains, so please feel free to contact the membership department at the IHEEM office.
