About C&B

C&B Electrical Contractors Ltd
Credibility • Sustainability • Reliability

We have spent decades building our reputation as a trusted provider of mechanical and electrical services throughout the UK. From complex M&E projects in critical clinical environments to educational facilities, our core approach remains the same: **communicate clearly, comply meticulously, and deliver reliably.**

Our team works collaboratively with project managers and stakeholders to deliver solutions that meet the highest industry standards, ensuring long-term performance, full regulatory compliance and lasting value for every client we support. Whether you require full **M&E support, system upgrades, planned maintenance or emergency call-out services**, we deliver high-quality workmanship and dependable project delivery nationwide.

As experienced M&E contractors, we understand that many of the environments we work in are operationally critical.

Our Mission

C&B Electrical Contractors Ltd
Credibility • Sustainability • Reliability

Our mission is to provide dependable mechanical and electrical solutions that support critical healthcare and educational establishments.

We combine technical expertise, innovation, and trusted partnerships to deliver safe, sustainable, and high-performing infrastructure that enhances patient care, improves learning experiences, and strengthens the communities we serve.

Through quality, integrity, and a commitment to excellence, we create lasting value for our clients, our people, and the communities in which we work.

We believe that true success extends beyond the projects we deliver.

Giving back to the community is at the heart of our values, and we are committed to supporting charitable causes, local initiatives, and community-focused programmes that make a meaningful difference.

Our Values

C&B Electrical Contractors Ltd
Credibility • Sustainability • Reliability

Credibility

Credibility underpins everything we do at C&B Electrical Contractors Ltd. As a trusted contractor based in Milton Keynes, working nationally, we have built our reputation on strong relationships and the confidence our clients place in us across the healthcare and education sectors.

Sustainability

We believe sustainable infrastructure is the foundation of the future. Our team helps organisations transition to energy-efficient technologies that lower operational costs while reducing environmental impact. This commitment is reflected in everything we deliver: Modernised infrastructure and fully compliant systems designed for efficiency and longevity.

Reliability

Reliability is central to our reputation. As experienced contractors, we understand that many of the environments we work in are operationally critical. Our team delivers safe, compliant and dependable installations and maintenance services, ensuring every project supports uninterrupted operations.

Our Services

C&B Electrical Contractors Ltd
Credibility • Sustainability • Reliability

Client Testimonials

"Working with excellent electrical sub-contractors like C&B Electrical Contractors Ltd is key to helping a project run smoothly."

-Medical Air Technology
Robert Jones & Agnes Hunt Orthopaedic Hospital

"C&B Electrical Contractors Ltd are our main electrical contractor and have been reliable, professional, accommodating and personable. Their pricing is fair, their operatives are friendly and presentable, and they have upheld high health and safety standards in everything they have undertaken."

- Director of Estates & Facilities
Milton Keynes University Hospital

"The biggest worry with contractors is usually that they'll be rigid, difficult to reach, or hit you with unexpected complications. C&B is the exact opposite. Their absolute biggest selling point is their flexibility and the fact that nothing is too much trouble for them. Whether your schedule is tricky or your project needs to change halfway through, they adapt without any fuss."

"On top of being incredibly accommodating, their team is highly knowledgeable. They don't just do the work, they understand it inside and out, meaning they catch potential issues early, troubleshoot efficiently, and explain things clearly without making you feel out of the loop. Their customer service is top-tier from the first phone call to the final cleanup. If you want safe, expert electrical work done by people who are actually pleasant and stress-free to deal with, they are exactly who you should go with."

-Business Manager
The Cooper School, Bicester
